

High quality welding at a reasonable price!

YS-50 Wonder Welder

"WP-7 Quick pull" is option

Manual or Auto start welding functions to suit the working conditions

Minimal welding heat damage to base metal

Single sided welding up to 0.5mm thickness of steel or stainless steel

Seam welding with rolling tip

Flexible cables for improved maneuverability

Washer Welding

High quality washer welding

Patchwork Welding

Broken panel holes can be fixed with patchwork welding

Carbon Shrinking

Dent pulling working by using Easy Puller

Specification

Model	● YS-50
Input Voltage	● AC200-240V 50/60Hz
Maximum input capacity	● 17KVA
Control method	● Thyristor control
Supply cable	● 8m 5.5sq
Output cable	● 1.8m 60sq
Dimension	● 260 × 390 × 560mm
Weight	● 33Kg

Standard accessories

774-20	Stud puller
774-11	ST stud bit
774-5	Drawing bit
774-3	Sleeve carbon
774-15	Welding tip
774-7-1	KB washer 18 φ [200pcs.]
T-310	G earth clamp
T-8002	Earth plate
T-216	Rolling tip
	Hex wrench set 6mm
